Dear Dr Jackson,
The steamer came in yesterday afternoon. Christmas was almost over, but it stirred us up, & as we had been thinking of the loved ones so far away, we could hardly wait patiently for the mail to be brought ashore & assorted so that we might hear from them. I was quite disappointed in not seeing any letters addressed in your well known hand, & of late date. I received one from Juneau, in relation to the Indian boy from Fort Greagh. We have heard nothing from Dr Corliss, or from any other party about him up to date. We have had a succession of gales here for the past week with very high

tides. Last Friday the waves
 dashed over the wall all the
 way from the school to the
 Bladney stone. As I went to
 the new "Home" I left word for
 the boys to have a good fire
 in the school for Miss Linnin
 so that she might be as comfort-
 able as possible. had placed
 some bar paper on the floor
 where she stands & covered
 the whole floor with boards
 from the last raft the boys
 brought in to make it more
 comfortable & to season the
 boards at the same time.
 About half past eleven, Linnin
 came rushing up through
 the snow & rain & reported
 that the waves were dashing
 the school room to pieces.
 Walter, Sherrigan & myself ran
 down, & we found that the
 waves were dashing a large
 log against the building like
 a battering ram. The sill on
 that side was knocked down.
 part of the siding gone & now
 & then a wave would dash
 through the window. Linnin
 ordered them (boys) when she

the Indians go as soon as
their month is up. Sheridan
I will keep until I get the
rustie on, if the wind does
not blow it off - Hope you
will send me some money
by next steamer, so that I
can settle with him. My
little grandson died on the
7th. Was taken with a congestion
chill in the morning & died
before noon. Have taken a
number of new boys into
the house & will take more
in a few days. Our "House"
is the best building here.
The Guard house shook like
a leaf the other night, so much
so that we could not sleep, one
old building blew down & the
Russians all left the service
fearing it would fall, part of
the sheet iron roof of the Priests
house was blown off, but one
building hardly quivered. We

received Twelve boxes
& bbls, fat ones, for our home
this time, Maury thanks to
our friends for their very
generous gifts. Did not get
them into the house until
after dark, have not opened
them, & do not know where
they came from yet. Thanks
for your kind suggestions
& advice. Will try & send you
a picture of the home by
next mail. The nurse is
waiting for this so please
excuse all mistakes. Family

ing kindest regards to

building, so that the snow
 will not interfere with us
 where the ^aweather will permit
 us to work outside. Have all
 the flooring laid on the
 second floor, except the hall
 & the E room next to the Davis
 road. We are fixing a sill
 under the beams over the
 school room, where we laid
 the floor in the large dormi-
 tory over that room, it
 would spring so much on
 walking over it, that I think
 it best to err on the safe side.
 We have the inside lining
 nearly all on. Our last
 raft of logs furnished us
 over six M feet of lumber
 & we have been using this.

Expect to open our school
 in the "Home" by the 1st of Jan
 shall not dare to take
 my family in their
 old account of Mrs Willard
 Mrs Austin. Dr Ayres
 told me to day that
 he greatly feared at our
 time that Mrs A- would
 have to go to S-Francisco
 to be treated for her
 eyes. I think they are
 better now, but it is
 impossible for her to comply
 with his directions to
 rest, & not use them. I shall
 go into the Home to sleep
 as soon as the boys have
 a stone into it. Maj Morris
 & wife go below by this
 steamer - for his health -
 He told me to day that when
 I removed from the stable

he would take it down &
 use it to repair other build-
 ings. I thought of asking
 you to get the Government
 to give us the frame, & we
 would remove it, & put
 it up for a carpenter
 shop. Have not been able
 to get the ditch & grading
 done back of the building, or
 to measure the distance
 to Indian River, will attend
 to the latter, & before next
 steamer, & if possible will
 have the grading done, am
 trying to get Mr Brady to take
 the contract. Have not
 hired any more carpenters,
 No money to pay them, or the
 ones we have. Secondly, they all
 want good pay. Thirdly, it don't
 keep light long enough to eat our
 dinner. As it were, shall let

left to remove every thing
 & we found them hard at
 work carrying their bedding
 etc into the stable in
 front of their building.
 Linnie staid until all
 of the school children were
 out & then Linnie put her
 her out without her hat
 & cloak, if it had not been
 for the partition we put
 in the roof would have gone
 into the dra. Had the bedding
 etc removed into one of the
 dormitories in the "House"
 where they all sleep, while
 they cook & eat in the old
 place. Have the rustic on
 the front, & up to the window
 sills around the whole

I feel interested in
your Alaska mission. If

during the next year

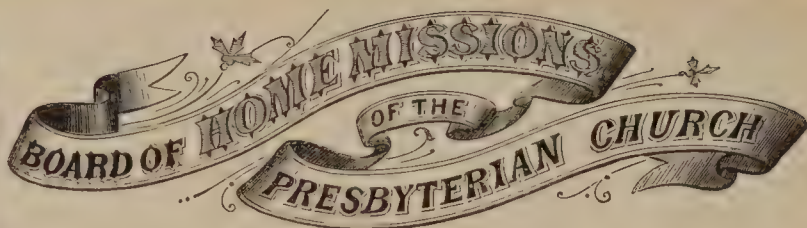

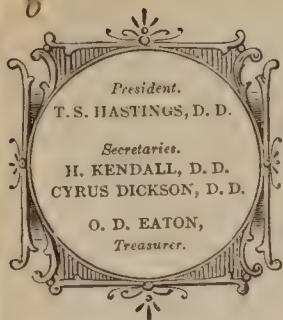

It is very distressing to read
the appeals published in
some of your papers on

with your Church

What is the reason of it?
Have you no general

Dear Bro Jackson

Yours is recd.
The Board at its June meeting 1877. granted a commission to Rev. F. A. Robinson for Alaska. It was without date or promise of specified salary, also without naming any particular point. The whole matter was left—as I recall it—to the arrangements of Mr Fraser, who ^{can} ~~could~~ tell you better than any one else why he did not go. At our last meeting we appointed him to go to either Fuscon or Prescott, since which time we have heard that he has accepted a call to a church in the Sandwich Islands.

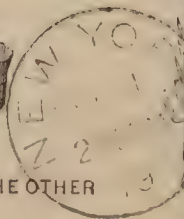

I probably should have sent you official notice that the Board granted

The request of the Woman's Ex. Comtee
for your services, but I knew that
Dr Kendall had written you, which I
thought was enough. You will remember
that it is W. E. C. that asked for you,
not the Ladies Bd of Missions

Mrs Boyd still gets a little money
not as much as we would like,
but still very encouraging. It is
over \$6,100⁰⁰ since they organized and
the year is not up yet. They will
^{present} state the full amount in the Feb or
March no. of the "Rocky"

Yours truly

Dear Mr. Jackson

Dear Sir,

Yours of the 24th duly received. We are glad to hear that we might be of some help, however small, to the work on Henry's. Enclosed please find postal order for \$5.00 and fifty copies of the B. & G. for which I should like as many subscribers as it will admit of. We are of much interest in the cause in which you are laboring and advertising the Rocky Mountain Presbyterian. Would you be good enough to send me a copy of it. And also if it would not be too much.

Rev. Sheldon Jackson D. D.

Dear Brother,

The long interval since the Steamer left for Portland is drawing to a close. This trip they are changing to the winter time, which has left us six weeks without a mail. It seems a very long time. But I can bear it much better than I thought I could when I came here. You remember how I felt on that memorable day in August 1877 at the thought that I would not have an opportunity to hear

from the Civilized World for a whole month. But God has enabled me to bear this, as well as many other trials since, and now from my heart I can say that although this is a hard work it is a work that pays and if I have many difficulties to contend with and many trials and annoyances to endure. I have also much joy and peace, and thank God that he has led me to this place.

The whole work of the mission is in a prosperous condition never more so than at the present. Our new church building is filled at every service.

The Catholics are making very little headway. The Priest went down to Victoria last Steamer, so their church

has been closed for several weeks. Four weeks ago we organized a Woman's Prayer-Meeting. We have met Friday afternoon of each week and we have had from 25 to 30 women present at each meeting and what is most astonishing every one who is a member of the church leads in prayer. We have all been struck with the entire absence of any thing like diffidence or hesitancy in the performance of this duty.

We hope much from these meetings. Miss Dunbar's school is very full and I think the Board made a wise selection when they sent her to us.

We also have a night school conducted by Mr. Young-Dr. Ellis and Mr. Chapman. It is

for the men who cannot attend
in day time. A great many
are glad of the opportunity to
learn. I feel much inter-
ested in the young men and
wish more could be done for
them.

The Home is doing
well, has 20 inmates. They
are as bright, cheerful and happy
a family of girls as I have ever
seen.

The poor, little girl I
took while you was here (The
one whose mother was murdered)
is a very delicate child and I
fear we will not have her long.

She seems to be gradually
fading away. I think it all
recul^d from the shock her neu-
erous system received at the time

Many of the packages have nothing about them by which we can know where they came from, but I hope they will all accept thanks just the same.

Since I wrote the first of this letter something has occurred that has made me very happy. For a long time I have been trying to get into the "House" the little daughter of Shu - Stäake, the wicked chief who threatened me a year and a half ago. Yesterday morning he sent the child to me, saying he knew he was a wicked old fellow himself, but he wanted his little girl to be good, and he knew no person could

do so well for her, as Mrs. M^c
Farland. She is 13 or 14
years old and a nice child.

I have married her Louisa
Moxcross. — Stu. Staaks.

We are much rejoiced at
this thing. This old chief
has opposed our mission from
the beginning and has been a
strong supporter of the Catholic
Church. He now attends our
church, and we are quite encour-
aged. Then our young chief
Staaks we believe is a converted
man. He has asked to be

baptized and admitted to the
church. But my letter is
growing too long and I have
much writing to do for this
mail. I received 66 letters by the
Steamer.

Sincerely Yours

A. Q. M^cFarland.

her mother was murdered.

There never has been any thing done with the murderers. The Indians have been waiting for all the principal men to get home. This week they have held a council and determined to arrest the man, give him a trial and probably execute him.

Mr. Young got home safely from the Chilcat country.

He was gone almost six weeks and had a pretty rough trip, but seems to have enjoyed it. He is very much interested in the tribes he met with while he was gone. He says he never saw such eagerness to hear and learn the truth as

he saw among these people, especially the Chleats. That after preaching for hours they would call out "go on, go on".

They are most desirous for missionaries to be sent to them and we all hope the Board will do something for them next spring. We have had two weeks of severely cold weather.

The coldest I have felt since coming to Fort Wrangel. This is a very cold house and we have been unable to keep very comfortable. I met with a great loss in having my plants all frozen. I think next to my work

I loved them better than anything else in Alaska. Now, I hope my friends who read this will send us some flower seeds, so we may make another effort to

have flowers when we get in our new "Home". Dr. Corlis has built a house between our church and the Catholic Church and has moved into it.

Mrs. Corlis's school is quite large, but is composed of such a transient set of people that her pupils are continually changing.

This makes very hard work for her, besides being so discouraging. But she has such lovely faith, that she labors on cheerfully, hoping the little seed they may carry to their own tribes may bring forth some fruit.

As Christmas is drawing so near the Indians are all excitement. Christmas is the greatest day in all the year to them. Through the kindness of many friends in the

states, we think we will have a
very nice tree. Dec. 20th

Now the Steamer is in we
find we will have to postpone
our tree until New Year's Eve

The California could not dis-
charge its freight for Wrangel
until they return from Sitka.

It seems too bad, but can-
not be helped. Through your
paper I want to thank all the
dear friends east and west for
the fruit they sent for our tree.

I am sure they would
be amply repaid could they know
how much pleasure their gifts
will give these poor people.

May God bless them all
for their kindness to us.

Department of the Interior,

Office of the Secretary,

Washington, December 1, 1879.

Dear Sir:

I received your letter concerning the success of your mission in Alaska. I am very much obliged to you for the information which you have me, and glad to learn that you have been able to do so much good. This Department would with pleasure extend its help to your endeavors for the education of the Indians. There has of late been a great deal of discussion, of any money as tax for doing so. But both these indispensable things are wanted. It might perhaps be proper that you should apply to Congress in the way of petition for an appropriation in aid of the efforts to educate the Alaska Indians.

Very truly yours,

Dear Sir The Newspapers all over the
States are republishing your report
that the "Russians offered
poor, miserable, lazy, poverty-stricken
Creatures, whom it would not be worth
while to take much trouble about &c."

Using it as an argument against
doing anything to develop or govern Alaska
just at the time when public attention
was called to the necessity of doing
something for Alaska, you have given
it a kick down the road.

You were a pretty self constituted
censor of my paper at the very time
you were writing more damaging

Dear Mrs Jackson

I was glad to
receive your kind
letter. We are all
well except little
Hettie. The little girl
I took while you
were here, whose
mother - was murdered,
she has never been
well since, & seems to
be gradually fading
away. I think it re-
sults from the shock

At seeing her Mother
Murdered, as she did,
The Indians are now
Trying to get the man
to hang him. Tonight
we heard several shots
fired, & are very im-
easy for fear some of
our good Indians
will be killed. Miss
Dunbar & Mrs Corlies both
have full schools-
& are kept very busy.
Our Sabbath School has
increased very much.
We now have six
large classes. I have
from 55 to 70 in my
class every Sabbath.

We were all just pleased
that Lillie has shown
so much decision of
character. & now we
love her more than
ever. Our communion
is just over & she
came out a decided
happy Christian.

Yes I am very glad
Dr Jackson was able to
visit Fort Simpson
& Metlacatta. Bishop
Ridley, & Admiral
Provo were up here
in October. I have all
ways regretted that
I did not go down
to Fort Simpson when

you went down.
For the "Hope" came
right up again. I am
very sorry about Miss
Will I had counted so
much on having her.
I don't know what to
do about taking her
into the home on
the same ground as
the other girls. Mrs
M. W. Wright is so much
interested in her,
& proposes to raise the
money for her support
if I will take her. I
am very sorry she was
not at home when the
Dr was there. Mr Crosby
teacher Miss Nott has
been married lately.

Mr Young has said nothing for a long time about going into the Home. I think they have give it up. Mrs Young is very well. She has a splendid baby. The best little thing I ever saw. The Bandorbelts are in Portland. The Corliss's are well. I am glad you met the Condit's, don't you think she is lovely? I am so glad Miss M Betts sister has has gone to Idaho, she needed some person

with her so much.
I never saw any person
better contented than
Miss Denbar. I am so
glad of it. I hope you
are pleasantly situated
for the winter.

Much love to the little
girls. My girls are
very anxious for
Christmas to come.
I told them I was writ-
ing to you. They say
tell Mrs Jackson we
would like to see her
again.

when I write to him,

Jessie A. M. Dec. 8th 1899

Rev. Sheldon Jackson D. D.

Dear Doctor.

I ^{have} neither written or heard from you since you were here. We are all well and getting along well at Jessie.

The Knot you tied for us when you were here seems to be doing very nicely and well. You have heard about the death of my Interpreter, Pablo.

I would have written before this but I had not the heart to write. I was so vexed and discouraged because I could not get his body to bury decently. The old man told me he was not afraid of death. He seemed to be putting his trust in Jesus. I read and talked and prayed with him on the day before his death. I read to him about heaven out of his own Testament which he had kept so faithfully notwithstanding the Mexicans kept telling him it was not a good book. He wanted his will made American like and I have it in charge for the heirs. When I asked him about burying

him he could not speak plain.
I understood him to be well
satisfied but the Indians said
he did not want to be buried
that way and there seemed to
be much opposition that I could
not press the matter.

I felt very much discouraged
and could hardly sleep one night
but I know I should trust God
and go on. I miss him so much
and see no hope of another.
The Indians seem to be very
fearful about their old customs
and are unusually active about
everything that pertains to Montezuma.
It is a well known fact with Physicians
that disease seems to often show the
most power and activity just at the
hour of its departure, just before the
patient begins to get better.
So in the account of the casting out
of a devil. It tore the man
and came out of him. I look
for these benighted souls to make
a dreadful and persistent opposition
to a change of religion and manners.
And still the very darkest hour

might be just before the dawn.
Ronaldo Montoya's wife is still
poorly. Since you were ^{her} baptized
and received into the church her
mother the very old lady you saw
at Romaldos. She is 84 years old
and seems very well satisfied that
she is now a Protestant. I think
more Mexicans will come in now.
You know how I am tied up here
and how much I have to do all
the time. If I had time I could go
around and preach to the Mexicans
and they would hear gladly or I think
some would. I have no word about
Romaldos Commission. It will be
a great disaster to us here if the
Board don't do something soon.
The new school room is about
ready to open school in and
we need it badly. The school
is doing well now. I sent the
box of stones and the wheel to Dr
Thomas and I believe I did write
you a few lines about that time.
Please tell me if you see about
Gallegos or if Mr Amrin sent
the list of licentates to the Board.
If the Board will not pay Romaldos

Now could you send him a
little to help him along and
keep him from becoming
too much discouraged. He seems
to be hopeful and confident that
he will get something, but he
needs some badly and would
be greatly encouraged by a
little money with which to keep
his family. I will try and send
you something for the paper soon.

It would not do to say too much
about Asah. If I could have
succeeded in baptizing and baptizing
him. I could have written something
interesting. Mrs. S. Jones is sending
love. I remain your humble servant
and your Brother in Christ,
J. M. Shields

Ogden, Utah, Dec. 8th, 1879

Rev Sheldon Jackson, Sec,

Dear Brother:

I thank you
for your pitying appeals in our
behalf in last month's "R.M.P."
Our building is all comple-
ted. The Board of Church Erec-
tion have voted us \$750. ~~This~~
amount with what has
been handed in as "special"
for Ogden would pay for
the building; if it were not
for the extras which we have
had to add to the building
on account of the school, if
we had \$800 more we could
pay for all extras on the build-
ing, for the desks of the school,
and for the furniture.

We purpose (I V) to dedicate
the church on the 30 Sab-
bath in December. I hope
we shall be able to dedicate
it free of debt.

I have received a call
from Zuni, Nevada; the
salary is much larger than
my present one and I
would have the advantage
of a comfortable parson-
age, whereas now I pay
\$200 a year only, my
\$6000 for house rent. I
felt that my duty was to
place this mission on a
firm foundation before
leaving it and I declined the
call.

I have received a letter
from Mrs Mary J Rice of
Honolulu, H. I. and she tells

me to say that she is gathering those curios-
ities which she promised you, but that
she will not have them ready for two
months.

Mr Gallagher joins me in send-
ing you love.

Dear Brother

My wife
opened her school on the
1st inst. under the most
difficult circumstances.
We feel that the power of
disposition without over-
shadowing power. She has
all the house work to do.
The child to nurse & the school
to teach. But the children
have set themselves against
us & declared a most deter-
mined war. Every time they
say that we are "crazy" they
know the teacher is to send
their children to our school.

There is a representation in
for the people of a District
in which I believe that they
are very concerned. They
are of course, as to me,
I have been surprised to
see that the independence
of the people, they believe
to be worth the sacrifice of
themselves. They are not
any children without
any hesitation. They have
no intention in returning
it is only the second time
after the opinion of the
people. They are of the
people in town. They are
single children & single
people. They are the
people of the town
it is made by the people.

Some of the parents of the children
 in school told me that the
 women's average was 25 years old,
 that many of them in town of
 100 had from 1000 to 1500
 children. These poor people
 were in the east were doing
 very hard work in harvesting
 and planting rice at a
 great sacrifice. While the
 women were living on
 the edge of the land, and so
 they had to be taken from
 them. They had to be taken
 from children from the school
 and so they were in possession.
 Mrs. J. Scott that the school
 is too small for her. Her
 salary can be made 1000.
 The lady teacher said it
 ought to be done soon.

Dear Susan Jackson Esq.

I remember you telling me you were going
out soon to I could you be going to New York you say
you I received a letter from you relating to "Commission"
I want to know as it makes much pain to have it stated
but I accept it very soon. However but as I have it with you.
The house down in ^{started} Merrill or Thayer? the day you left you
have handed me a delightful life. How you are down here.
I am sure you shall never regret that life although we that
are happy on the way. We intend to start on our journey home
soon this week. Mr. Perkins was thinking of going to Illinois
but that man trouble up in the mountains forbids one go-
ing there for a man that it is built here by the Government
very soon. as we are headed to see the location and not out-
side or hindrances arising from the same. and in the
event that Mr. Perkins thought it would be most secure some
of the contract. Mr. Perkins will not but is undecided. He has just
returned to Paris. Dr. Lyden Perkins is now at Paris
here. Still he is in the way of the way, after we get
started. I enjoy roughing it very much. but am gain-

ing in health every day. This is a golden opportunity of
acquaintance with the Mexican people. I Mr. Lullie is
with us. He is not on any the people of El Paso city. I find
him being just on the opposite side of the River. How
much I wish I could show the condition of his people.
I can imagine the roads and houses in the East. I am sure
I could not be long until we would have a school at
Las Cruces. We will be Franklins and El Paso Great Series
of girls beautiful to look upon. who seem so attractive. I
look after them with great regret that I cannot reach out
and offer them protection and an "Industrial Education".
The only practical thing for them at this age. I left Willie with
his aunt at Santa Fe. She cannot not do without him well. I had
a desire to have Mr. Perkins keep his carpenter shop open for boys
who might want to learn the Carpenter trade. but do not know
how much we could raise towards it. We would have to buy
some tools and some thing to start them with. Mr. P. is willing
to aid in this way but would not furnish tools for the boys. They
are anxious to reach home by the 7th. Mrs. Sherman writes
me the school is costing too much. and that the Maria Bel
does not receive so great outlay. I paid for the 1st year of school
last year. Hoping you may have a very good and very
profitable trip and that the good Lord will keep you in
all your journeying. I remain very truly. Mrs J. P. Perkins.

Dec. 8th 1879.

Dr. Jackson,
Dear Friend.

Your letter, with one from
Rev. George Little, was received on the 6th.
I appreciate your kindness greatly, as also
that of Mr. Little. I also received on Saturday
a telegraphic order from Com. Hays
for me to take a delegation of Jicarilla
Apaches to Washington. I suppose I will
now be enabled to "carry the man into Egypt";
and this I reach an understanding.

I can reach Washington about Christmas,
but as no business could be done for a
week after that, I shall ask the Com. for
your permission to make it a week later.

When will you be at Washington? I would
like to meet you there. Will you have the
kindness to give me a letter to Mr. Little,
and any others who would interest themselves
in a good thing? I will go to Tierra An-
guilla for my Indians, and will probably
return here - however, that will be deter-

mined by the tickets the Committee pro-
poses printing me.

I must have those school plans
before I start, as I shall get the Com.
to have specification made if I can.
Please send them, and any letters
you may have, to me here.

With many thanks,

Yours very truly,

Dear Bro

Yours of 29th ult came duly to hand, and the note with accompanying plan for Kodiak Island Alaska read to the S.B. Teachers last Sabbath afternoon, after which they unanimously voted \$100. to that object. It gives me great pleasure, as Superintendent of the "Lawrenceville Presbyterian Sabbath School" to enclose you a draft for \$100. = Immediately after appropriating this sum, the teachers united in prayer asking the blessing of God to follow it.

Let us hear from you, and if the effort to establish a mission on "Kodiak Island" should fail, place the money we send you, where it will do good at once.

Some time ago you sent me a crock, or flower pot from the Pueblos. I hoped you would have sent me something descriptive of it - You made so - that I might have made a talk about it to the School, but as it is it has, thus far, proved dead stock, in the interest of Missions.

I had the Rev. C. H. Mater, missionary to China, with me, overnight, last week.

Rev. Sheldon Jackson D.D.
Dear Doctor.

Mrs. Trinidad

Montoya wife of Rev.
Romaldo Montoya, died
on the morning of the
13th. She gave very good
evidence that she was
a child of God. She seemed
to be happy in prospect
of entering heaven through
the merits of Jesus.

We buried her yesterday
near the grave of Mrs
Shields. A large concourse
of Mexicans and some
Indians attended her funeral.
All behaved well and gave
marked attention to the services.
During her long affliction we

have done what we
could for Romaldos.

He can now go out all
over this Country to
preach the ever lasting
Gospel to his Countrymen
and he will have plenty
of hearers, I feel sure.

I asked the Board in
my last quarterly report
to let me know immedi-
ately if they could not
commission Romaldos.

I have however no assu-
-ance that they will ever
do that. Mr Miller is
home again and is
very well. He says you
did not call to see him.
We talked about the Trade-
-ship at Jermes. I am
sorry to say anything
against Mr Miller.

Judge Beaumont I say
ought not to be allowed
to remain on the
Reservation. Mr Miller
is what we call a
Moral Man. and
his utter indifference
to anything like
religion is the only
fault I have to make
to his Character.
But another thing I think
you all know and that
is; that Mr Miller is under
J. L. Johnson & Co. and
all goods sold here have
to be sold at an enormous
rate to allow Mr Miller
to make a little on them.
Yesterday Mr Miller did
what he could to help buy
Mrs Montiza, but Beaumont
kept the store open and

did not even walk to
the door to see the procession
as it passed. I do not accuse
him of selling goods yesterday
I don't think they sell much on
Sunday but the store is kept
open all the same and is
a rendezvous for the Catholics
of all descriptions.

For several weeks before Mr
Miller came Beaumont was
drunk most of the time and
I don't want to see such another
time in Jones. I think he
would have killed an Indian
one night and been killed
himself if I had not interfered
to get the row settled. If the
Church and the government is in
partnership in this matter I think
it is a great big inconsistency
to send one man to teach religion
and another set to utterly ignore
everything like religion.

These things are well known
and if the government will
do nothing different then
it will have to be long. You need

Canon City, Col. Dec. 15th
Dr. Jackson,

Dear Bro',

The Church here,
you know, applied to the
Board for \$500.00. They
have granted us just \$200.00.
We cannot get along with
that, & shall have to renew
the application. As you
are on the ground, we hope
you will intercede for us.
Let me state our circum-
stances & tell you what we
are doing.

In the last "minutes" you'll
see our membership is stated
at 45. But when I came,
there were 7 members absent,
making only 38. But we have

already rec'd & making
again the No. 45.

What are we doing?

Paying \$1000.00 towards the
Salary. Liquidating a debt
of \$450.00, a part of which
was subscribed before I came,
tho' none of it was paid.
Contributing \$75.00 towards
the S. S. this year. Meeting
promptly all the running
expenses of the Church.

Then, yesterday, I presented
the claims of the Board &
pressed them hard, & the re-
sult was a subscription
of \$105.50 on the spot, to
be paid by the end of Feb.,
& to be apportioned by the
Session. Some were not
present who will subscribe,
& we expect the amt to
reach \$125.00, or \$150.00.

Of this, as it stands, we
shall give the Home Board
at least \$50.00, & if the ad-
ditions are what an expert,
probably considerable more.
What is the aggregate?

Salary	\$1000.00
Labr -	450.00
D. S.	75.00
Boards - at least -	125.00
Running expenses about -	50.00
Total -	\$1650.00

Not a bad showing for
a church of 45 members.
They are doing well - all
they can. I don't believe
there is another ch. in the
State doing as much. Should
all of our Pres. Ch's do equally
well, none of the Boards would
be embarrassed. The people
are interested. The work is
promising well. Our D. S. ges-

Century numbered 100 - larger
than it has ever been before
in the history of the Chr - Society.
When things is encouraging!
Pockets have been opened, &
we expect God will bless
us. But we can't do more.
There is only one alternative
if the Board can't help us.
The Chr must give what be-
longs to next year & then
the doors must be closed.
That is the way they are talk-
ing.

Then why can't I get along
on less salary? \$1500.00 is what they fully
afford me. When in salary
I ran behind about \$500.00
True, I had sickness & deaths
in my family, but I may have
them again soon. There must
be provision for such emergencies
I can't run behind in that
way any longer. It would break

rupt me. Besides our ex-
penses in Canon are much
heavier than in Grady.
Of course we have no board
I pay for Edith & myself -
for board per week \$10.00 -
& it is nothing extra -
For rooms 2 rooms \$15.00
a month.

It cost to keep my horse,
a week \$3.00, & I take
care of him myself. I have
thought I would dispose of
him, & yet I need him for
visit'g outside. Then there
are washing, mending &
clothes, with all of the
free & incidental expenses.
I can't get along on less.
And the Ch. can't do more &
be sure of running another
year. All are doing nobly.
This is all my plan.

Mr. Brewster has been ap-
pointed to visit to the Board,
& yet I wish you would
present this letter to the
Secretaries & present our case.
Let the other Mission Ch's
do as well, & then would
be no trouble. Greeley & Evans,
for instance, are not doing
half as much in proportion.
I had hard work there, for
they were not educated to
give. It is difficult to cor-
rect old habits. Still they
improve, as you can testify.
In almost all cases the
fault in giving is due to
pastors. But I do not
think it right to press
this Ch. more at present.
Hoping for favorable action,
I am fraternally yr's -
J. W. Partridge.
Next year the application will
be for very little, I am confident.

8000.00 is the sum that has been given before

Dear Bro. Jackson

Seldom have you been so reticent: & it makes me anxious, for your last told me Bessie was having a lapse—which is always to be feared. But I hope your next will relieve me of all responsibility—anxiety—I mean!

1. As to Dr. Lindsley & the money—I think there will be no trouble. On account of what he had assumed for the Home Summer & to have matters more nearly at hand for Fort Monroe I did commit Mr. Esters to forward any balance on hand for the Home to Dr. L. but I had no idea there was \$2000.

I cannot say I am very sorry the Home will not be completed till next year—for I foresaw when I left there, that at the very best the work would not be done till the wet & short dark days would be on hand, & that it would be a bad time to get settled, how the work can be finished in the Spring & the moving & settling can be done in mid-Summer. I must now tell you of later

Matters in the case -

Vanderbilt is at Portland suffering very much from rheumatism & wanting the money he has advanced. We send him thro Dr. Sindleby his \$300 for rent. The Board of Chh. Education send the \$1000. for the ^{Chh} Building. We have sent Gerry half year's salary \$500 \$200 extra on past expenses & Mrs. G. one quarter's salary \$125. total \$875. & Mrs. McHardy's Home account about \$225. & she is paid up in full on the last quarter. So they must be able to square up their store accounts with Vanderbilt. So I think things will work out all right.

Now as to other matters about which you have written or have not.

1. No recommendation was forwarded to us about Mrs. Sharon's re-appointment. Was it ~~an~~ intentional or unintentional?
2. Ocati. Is it wise for us to pay \$800 or \$1000. to Mr. & Mrs. Hall for a School of 20 scholars?
3. Las Vegas - our School Com. advise to commission Armin for 6 months with the intimation that at the end of that time a change may be desirable.

4. *Rigger's Salary* we shall probably increase at our next meeting.
5. *Santa Fe property.* My advice is that instead of paying Giddensleeve \$250 we had better put it into Dr. Thomas' hands & have him go to the Brewers & obtain a release to us of so much as possible of the property in dispute & send it there. Something of that sort will be done I presume.
6. *Married women & mothers as Teachers.*
Mrs. Sharon - Mrs. Shields & Mrs. Perka. We shall have to construct matters a little. Mr. Perkins can't have his bed & board in the School premises without paying for it. I am told that the Foreign Board does not pay as much to wives as to single women - & there is reason in that - & that brings up another question.
7. *Annie & Roberts.* Annie had \$1000 or more when her children were wholly dependent on him - last year he had \$1000 salary & there were one daughter had \$400 & the

other \$425 in 15 months. Making about \$1800 a year in his family besides house-work.

Roberts gets \$1000. & his wife gets \$500 ostensibly on the ground that the \$500 was necessary to have a house-keeper so that Mrs. R. could teach. But since Miss Burkhart left El. Rancho that house keeper has been teaching that School - & so far as we can learn she & Mrs. Roberts keep the house & run the two schools - It must be worked into & explained. What to do about Peru & his wife I don't know. How much is he doing there & how large could the School be if we had a good teacher?

8. Zuni - What Rail-way Co. had been running their Survey thro Zuni about the time you were there? Is the Atch. Top. & Santa Fe road going out on the 35 parallel from Albuquerque? Let us know the last R.R. probabilities of the times -

9. I agree with you that we ought to have a mission & school at Albuquerque - But I take it you don't know any more about Mesilla & El Paso & other City than you did before. Perhaps they will keep.

10. Monument. Pueblo, Golden - we have recom-

mened to Sustentation.

Curay & Smith- The people protest against the action of Presbytery which seems to me very arbitrary- Cutting a man off in that way on hearsay charges, & in his absence & with no opportunity to explain or defend himself I think is very unpresbyterian.

10. Darley & his work- No one doubts Darley's energy- But I think every man that knows him doubts his prudence- I shall not consent to any such appointment till I hear from Roberts & Armin & as to putting him in control of Miss Ross & all the School work- never.

Darley would probably have half a dozen Jesuits in disguise working for him in six months. I don't take any stock in him for such work. If there is to be any supervisory work among the Mexicans in Cal- we have a good man for it in our employ now- one Sheldon Jackson! & that leads to another thing

11. Ortega Montoya & Mars. added to Mendra-
gon. Romero & Pena - six in all with Gallegos
left out. they ought to do good work. But
I am afraid of them. They are good men
no doubt. But they are uneducated & unrein-
ed men. The pay recommended is too much.
& it looks as tho' Darby, Armin & Roberts are
to be Brigadiers & send out these men to do
their work. If there were a great move-
ment of inquiry among the Mexicans
& we could find no better help I should
be in favor of these. I cannot say that
I disapprove of one at Jerez. one at
Luzerna as an experiment. But Darby
if he is appointed which is doubtful
& Armin & Roberts can do the work them-
selves & you can do all the supervising
& directing the Mexican laborers need-
& you will become better acquainted
with the men & their fields & their work
than you are now & than they can be.
The new plan of work reminds me
of the Mormon System in which "every
fifth man is an Officer."

Finally - unless I think of something
else. You probably expect a great im-

immigration into South E. Col. & New M.
& Montana next Spring. You must be
getting ready for it. I hope you will
be East as soon as possible. I want to
see you. Carl Schurz congratulates
us on our good beginning in Alaska
& suggests that we petition Congress
for aid. Fort Defiance School is in
the pot boiling - I think we shall have
it in shape soon.

Mrs. K. has just gone up to Grand Rapids
on a summons from Fred's wife saying
he is running down again - I am afraid
he will be compelled to resign & leave
that malarious climate.

I lectured three nights in succession
in Jersey week before last, & was engaged
for three successive nights last week.
But Dr. Dickson is not well & his
physicians say he must have immedi-
ate rest, & so I withdrew my appoint-
ments for last week & must take the
sabbaring over here for the present.

I hope Mrs. Jackson will not be wholly
prostrated by Bessie's illness—

P.S. I have seen what you have written
Mrs. Graham about Mrs. Griffette. I quite
concur with you in your estimate of her
character. At the same time I urgently
counsel Mrs. Graham not to employ her.
She is too feeble & too unstable. It will

Dear Dr Jackson

I feel almost-certain that I wrote you some weeks ago - But am not certain - So I now write concerning some matters which if not attended to ought to be - I may say that I have been very busy & this is my excuse for any seeming neglect of duty - Let me dash into the middle of my work without further introduction

I tried to get our Presbytery to adopt a resolution claiming Alaska as within our territory - but found that the majority didn't want to touch it - "Dr L. had been at work there & we had enough missionary territory to look after &c" I then said let us overture Congress to attach Alaska to Oregon Presby. agreed to -

I had to return to Olympia before
Synod ended & overture not reached
during my presence - When brought
up Oregon justly claimed Alaska as
already in possession by act erecting
Synod of the Columbia - O.P. Hood told on
that - Pres. of P.S. did not care to fight
for a shadow ~~and~~ to the matter
stands -

- (2) I introduced a resolution
thanking Rev Dr Jackson for labors
in Alaska &c - and requesting the
Board of Missions to send him
to Washington this coming winter
to secure money for Indian Schools
in Alaska from Uncle Samuel -
The foregoing not the exact words
but exact substance - Resolution
passed unanimously - I then asked
reporting clerk to be true to put
it in report to Pres. - He said
he would & it appeared in the
city papers - I had also asked him
to be true to send same resolutions

& Occident. He promised - I of
course took it for granted that you
would see it there, & went about
my business. To my consternation
I wrote to our reporting clerk for
an explanation of the inaccuracy
of this thing. & he replied that the
action of Synod ~~was~~ taken before he
had sent report to Occident caused
him to think that our Presbytery
had no business with Alaska
whatever & so he suppressed the
resolution about Jackson & Alaska.
Shortly after receiving this reply (wh
reved me much) I had to start on
a trip of some 300 miles to our little
Church in Klikitat County (33 members)
organized by me last Summer.
I only returned last week & wrote to
the Editor of the Seattle paper for
the printed report of Presby doing -
I got instead (last evening) the report
of Synods doing - I have to day
written explaining the mistake

and asking for the right papers
If he can't furnish copies I shall
write to Clerk of Presby for certified
copies of Resolution - & forward to you
for any use you may see fit to make
of the same - The Clerk of our Presbytery
ought to ^{have} sent that part at least
of the Resolution wh thanked you
for work in Alaska - Did he do so?

(3) I found such a tide against electing
a Synodical Missionary this year that
I saw there was no use attempting to
stem it

(4) We have abolished the Exte Com
of Synod & have instead a Com. on
missions of wh I am a member Drs
Lindsay & Geary being the other two -

(5) The Presbyteries of our Synod were en-
joined to look after mission work & field
within their respective bounds

I think it probable that I shall write you to look out
for a young man for Klatskanie County active & discerning with
a goodly supply of brains & grace - But don't do anything
until you hear again from me &

With kindest regards & prayers for your
success - I remain very sincerely yours

J. W. Thompson

Dear Madam

Your valued letter was
duly received, and I had hoped
would have received, an earlier
acknowledgement. But wishing
to say something had been done, I
waited. I fear you have given
up our Syntical Committee as
a failure, but such I am thankful
to say is not the case.

As you experienced in your
work, there are always many cir-
cumstances to any good effort. We
know whence these come, and per-
haps it is permitted of the Lord to
prove our earnestness and faith.

As you are aware, fifteen ladies
were appointed on our Com. & these

the working of the Presbyterian, and other missionary papers. They have been much

from each presbytery.

The three from this Presbytery of San Francisco were all from churches in the contiguous cities of S. F. and Oakland.

As S. F. is the centre of everything religious, secular, intellectual and commercial, ^(in Calif.) it would neces-

sarily be the centre of our work - but

there was the great hindrance. Not one

lady appointed in this Presby. was

willing to serve!!

In virtue of

leading the list of names, I was

chairman (I prefer to keep my sex

in titles, as well as in fact), but it

seemed to me that some one from

the large churches in the largest

presbytery was the most fitting one

to take the initiative. Our Synod-

ical Missionary, Mr. Hazen, asked

me to call a meeting of the ladies

here. I found one was absent, and

the other two positively declined serving.

I hope these sentiments are
interested in the record at H. Wangle."

one from timidity, the other Mrs Kittle,
daughter of Rev Dr Lott, from over
pressure of duties. Neither would
call a meeting, not even a preliminary
one. I was thus compelled to await
the return of the Oakland member,
which was not for six weeks. On her
return I found that want of health
would prevent her acceptance of the
appointment. I asked her to send a
substitute from that church, but as
no step was taken I waited upon
the pastor, Rev Mr Spence, and asked
the Session, through him, to send us
a substitute. His sympathies were
thoroughly enlisted; he promised to
see the appointee and hoped to in-
duce her to serve - if she would not
he would have another lady appointed.
She selected one to take her place;
but on the Tuesday before the day
appointed for our meeting, she was com =

pelled to decline, from sickness in her family. There being but two days in which to secure anyone in her place, I at the request of Rev Mr. S. saw several ladies, and finally secured a promise from one that she would serve, at least for a time.

Calvary Church, of S. F., had been asked to have a lady sent in place of the one who would not serve. I had a promise from the elder of that Church that it should be done; but on Monday, ~~the~~ inst, I saw him and nothing had been done! We were to meet on the 4th! I then called upon the pastor, Rev. Mr. Humphreys, who promised to bring the subject before the Session, on Wednesday evening.

You may imagine my anxiety! Not one lady, in this presbytery, to be counted upon two days before the 4th! I had, as you perceive,

favorable indications for the future. C. S. C.

been compelled to take the responsibility of calling the meeting and fixing time and place. This was done by advice of the members of session of two churches to be represented, - Calvary, 1st (2 Oakland, - but at the time the notices were sent, I expected that we were sure of members from these two churches, and Mrs Kittle had seemingly acquiesced in my request that she would assist in organizing and then she could resign.

I was the more embarrassed from the fact that I belonged to another presbytery, and that the smallest and poorest in the Synod! I had no church to invite the Com. to, and as I ^{would} board, I had no home where we could meet! I was obliged to ask

for the use of their churches; and also
to solicit them to extend the hos-
pitality of their homes to the strangers!

From one of themselves all this would
have come with most better grace.

But the work had to be done, and
there was literally no one to do it
but myself. P. M. was the proper
place for the meeting - it should
be the centre of future work, and
the officers should be principally
residents of this vicinity.

I went, on the morning of the 4th, to
Calvary Church, only sure of one resi-
dent delegate, and she was an hour
after the appointed time! I began
to think even she would not be there,
and was just lifting up my heart to
God for strengthened faith and guid-
ance, when Mrs Burleigh entered as
delegate, a member, from Calvary
Church. She had been elected by the

session on the preceding evening - is
wife of one of the elders - a capable,
earnest woman, who will do all that
she undertakes, but will not undertake
that which she thinks she cannot do.

Her pleasant face brought new
courage - Soon, Mrs Judge Hall ar-
rived - the one I expected, from the
Oakland St. I had expected
several ladies from a distance -
three Ladies said positive they would
be with us. Others purposed coming,
but all were prevented!! The hus-
band of one Lady Sciatica; another,
missed the train by one minute
(there had been a change in time of trains),
another, had three friends arrive in-
opportune from the East; one, a dying
mother-in-law; another, an absent
husband, which threw necessary du-
ties upon her, & two others, ill.

But, in the midst of the great disap-

pointment, all wrote cheering and interested. Only one, outside of these two cities, declined serving; and that, not from want of willingness, but because she and the pastor's wife had ~~been~~ appointed from one church, and that one of the smaller ones. She felt that the two largest churches should be represented; but said she was ready to do anything we would ask of her for the cause. I will quote her words - "much as I am interested in this good work, I feel that it would be far better for me to resign." "I will remain at home ready to do whatever I can to assist those who are more publicly active in the cause."

But all the kind letters did not give us votes at our meeting, and as we were only three, it was inconvenient to have the chair com-

pledged to vote upon every question.

Rev. Mr. Sprecher had advised us to organize if but two were present, (I had, in my doubts and fears of the previous evening, consulted him regarding the propriety of calling another meeting in event of a very small attendance,) as there might be the same delays and difficulties the next time; as people were loth to enter into new things, especially if they were likely thereby to incur much responsibility. They would readily come into an accomplished organization."

We spent the morning hour in consultation and prayer, and resolved to defer organization until the afternoon; meanwhile, we would consult with Rev. Mr. Hemphill,

and Mrs Burling would endeavor
to get Mrs Kittle to attend.

I had prepared lunch for a dozen
people - only four partook of it.

Mr H.'s advice was the same as
Mr ~~Humphreys~~^{Spencer's} - My husband also
coincided with them; so feeling
that we had obeyed the powers that
be by consulting "the pastors", we
in faith entered upon our work.

With what result, you will see by
the "Accident" of the 17th inst., which
I send by this mail.

You will observe in 4 of the Regu-
lations that we say we will report
every Feb. - Would that be the
best time for you? If so, how late
in the month would answer? Would
March do as well?

In 5 you will see that we appoint
before evening service, on Sabbath, as
a season of prayer. To those en-

gaged in Sabbath Schools, or having families to prepare for church, it would be impossible to have a few minutes before morning service.

In the election of officers we were hampered. Both Mrs Hall and Mrs Burling objected to serve ^{as Rest.} the former, partially from lack of time and both, because they were unwilling to lead in prayer, and yet believed a presiding officer should do so. So, as I was in the minority, I was compelled to serve for the present - either until they change their minds, or some one else can be secured in this Presbytery.

We wished to have the most important officers here, but lacked enough for the purpose! So Mrs B. was made 1st V. Rest. and 1st Cor Secy, though she positively refuses to fill the latter position. Says she

never made out a report in her
life, and cannot do it. Her task
falls upon me until Dr. Alexander
will give us additional mem-
bers, or Dr. Kettle's church sends us
a representative in lieu of Mrs
Kettle. I should have said that
Mrs K. did attend the afternoon
meeting, and saved my voting all
the time. I had, before the
meeting, asked her personally and
by note, to secure a lady in her
place, but in vain. At the meet-
ing I asked if she had presented the
subject to her father - "she had not
"would she do so, and get their session
to elect one?" "She preferred I should.
Thus, even with her own father, there
was no one to speak but me!
I called upon him the next day - he
said he would lay it before the session
on the following Sabbath - I gave him
the names of two ladies in his ch.

who would be efficient. The Session desired time to deliberate and select, but I have not yet heard from them.

I have given you a detailed and somewhat tedious account of the beginning of the work here, but I thought you would be interested in all pertaining to it, and it also will explain why I have had to be so prominent in it.

Providentially, my home is here for the present, though belonging in the Southern part of the State; and it is probable I may remain here for a year.

We remembered your Committee in our prayers. Will you remember us, and ask the Lord that he may give power to the faint, and that we, who have

no might, may ~~may~~ be increased in strength?

Yesterday, I attended the Home Missionary Society of the 1st Ch. of Oakland. A proposition ^{was} made to them to connect themselves with our Hygienic Committee; but their acting Pres., deferred it until the next meeting - a month hence.

Mrs Burleigh has laid the same before the So. of Calvary Ch.

It will take us sometime to get our work thoroughly inaugurated, but we will do all we can in our present feeble condition.

Please send "The Book of Hygienic Comtee's" to the following persons, and send me the bill.

Mrs W. W. Brier, Centreville, Cal.

I should say, in reference to
St Johns Ch of S. F., (St Scott's,)
that they do a great deal for the
Theological students, and hence
cannot do much in some other
directions. This is, of course, true
Home Miss work, but passes to
the credit of the Education Fund.

There are some questions in
your letter unanswered, but I
must close now, Hoping to
write you soon again.

Yours, very sincerely
E. S. Cameron

Please accept the thanks of our
Committee for your letter. It fully
answered my questions.

It may be encouraging to send a few ex-
tracts from letters received. I love the Home
Mission work - and will try and do something

Love for the cause. I pray that the Holy Spirit may be with you in your meeting and that you may be greatly blessed. "I shall make an extra effort to be present at the meeting. We have recently organized a Home Miss. Soc. in our church. We are all much interested and have made a good beginning." "I am with you in heart in every effort to promote the interests of Christ's Kingdom on earth." "I trust there may be a full meeting, and that we may learn how most advantageously to work in His good cause." "Our Society is in sympathy with the movement, and we wish it every success. You have our earnest prayers that the Holy Spirit may indeed meet with you in all your deliberations, and great good result therefrom. We shall be most happy in doing whatever the Comtee may request of us in forwarding any plans they may see best to make in reference to Home Missions." "I hope and pray that ever so much may be done for the Home Miss. cause. The prayers and the funds of God's people are both greatly needed for it." "I shall feel interested and think of you during your meeting."

Dear Brother. Allow me
on behalf of self & family to
Express thanks for papers sent
by you & received by the last mail.
On Monday Dr McNett, his niece
Miss McNett, Miss Eastman &
Miss Griffin arrived at this place.
We were all gratified to see the
ladies & the Doctor. We have been
needing a physician very much
as there has been considerable
sickness among the Indians.

Mr Eastman has been gone on
his trip to California for some
two weeks, & will probably be gone
for about 3 more weeks.

He was not expecting the la-
dies to come till spring & conse-

Greatly there was no preparation
for them. They will be obliged to
board with us till Mr E returns.
We have our hands quite full
with six boarders. We are
making some progress in the
acquisition of the language.

This however will take considerable
time, as the Navajo language
is quite a difficult one. A
party connected with the post
trades here have done all they
could to hinder our work among
the Indians. They persuaded
the former Interpreter not to in-
terpret for me on Sabbath.

Mr Eastman dismissed the In-
terpreter & employed another.
But as soon as Mr E was
gone the new Interpreter refus-
ed to interpret for me - no
doubt influenced by the same
parties. How much evil a
few men can do when they

are ²⁰disposed

Now I wish to speak of
the matter to, kept entirely between
ourselves... in a year, if not
sooner the present Agent will
cease to act. I feel quite sure he
will not seek reappointment.
He as you know is but using
this as a stepping stone to a
home on the Pacific Coast.

Now do you think I would
be a suitable person to suc-
ceed him? My reasons for
wishing to act as agent, are
many. First I would dismiss
all Godly employees. - Men are
here in that capacity who do
not leave a stone unturned to
hinder any good work among
the Indians. 2nd I would
stop the issuing of supplies on
Sabbath. Other men have done
it, and there is no necessity
for it. 3rd I would be here
to a view to permanency. &

Having the good of the Navajos
at heart. Other Agents come
here to spend a year for their
health or to see the Country;
or for some like reasons. Con-
sequently the Navajos are fed
but their Condition Morally
or socially is not bettered.

I think by the time the vacancy
would occur, I would know
much more about Navajo af-
fairs than any new man coming
from the East. As to my busi-
ness qualifications, I could give
you reference to parties who
know me in the East, where I spent
about five years Merchandising.
Please answer at your earliest
convenience, telling me plainly
what you think.

Trusting that your child is
well again. I am

Sincerely your friend,

Dear Brother. Since writing
the above I have had opportunity
to observe the attitude of
our new arrivals toward re-
ligion. Only two of the new-
comers, and two of the old resi-
dents, were present at a bible
class held for the whites at
my house yesterday. The whole
number, with the exception of
Mr Angel spent most of the day
running about over the hills
sight seeing. God's holy day, is
made a holiday. What effect
will it have for me to tell the
Indians to keep the sabbath holy
when those who are sent to
them as teachers so openly desec-
rate the day. All the trouble
I have had to get an interpre-
ter has come from the influ-
ence of the Post trader party - in-
cluding my East man clerk.

If this reaches you before
you are at Allegheny Semina-
ry I wish you would see Revd
A. H. Jolly. ^{of the evening class.} I have written to
him in reference to the Mogie
Mission. Mr Mateer has resigned
his position as Agent, and it
is now under the care of the
Agt here.

Very truly yours

you will be surprised when
I tell you how pleasant I
am getting over this winter -

There is a great mania
for going to church and the
house is altogether too small
for the audience - They come
an hour before time &
I have to be very cross and
lock all parties out till

 The Keshort affair is
 now amicably settled - we
 have a grand SS, and we
 had a grand Christmas

 talk to me to be all the

 a bell & enlarging the
 Church, I could get the
 money at once if I were
 perfectly sure that the RR
